1	05-Mar-2026	The fraudulent UPI transactions were reported through the BHIM Utkarsh App (Android platform). The issue was reported by NPCI, and analysis revealed that the affected users were non Utkarsh Bank customers who were fraudulently onboarded and exploited through SMS spoofing, resulting in transactions being executed from devices different from those of the victims. While no internal system anomalies were observed and the application was compliant with applicable NPCI information security requirements, device binding controls were bypassed. As an immediate mitigation measure, new customer onboarding was stopped, and based on NPCI recommendations, Advanced Google Play Integrity validation was implemented in coordination with the bank's TSP. This end-to-end validation approach strengthens security, ensuring that only legitimate apps on trusted devices can initiate transactions.
